

EVTE ECOWATT Roof centrifugal fan

Description:

Roof-mounted reversible helicopter extractors with single-phase, three-speed adjustable motor, constructed from weather-resistant materials.

use:

Extraction of stale air (kitchens, toilets, laboratories) with maximum temperature 60 ° C .

Special features :

Very easy removal of the motor/fan assembly.
On models 50, 80, it is possible to realise air supply operation by rotating the motor-rotating unit through 180°.

Characteristics:

Models 50 and 80:
The frame is made of plastic material.
The base and cap made of galvanised steel, protected against corrosion
by an epoxy-polyester paint coating.
Models 130 and 200:
The frame and base are made of galvanised steel.
The pod is made of aluminium. All parts are protected against corrosion by an epoxy-polyester paint coating, volatile protection mesh and cable gland inlet connection included as standard.
The motor and impeller can be easily removed for inspection and cleaning by means of 2 fixing clamps.
Single-phase 230V 50 Hz.
3 adjustable speeds.
IP44, class F, thermal protection included and lifetime lubricated ball bearings.

Accessories :

- Non-return damper
- A three-speed switch
- single-phase regulator

dimensions

all measurements are in mm
