

EDRA - EDRA-PQ Circular diffusers with adjustable cones

Description

Aluminium circular diffusers with micrometric cone adjustment.

Characteristics

Material: aluminium and steel.

Finish: painted white RAL 9010.

Installation: with screws to the diffuser neck.

Use

Ducted air conditioning and treatment systems with installation height between 2.7 and 6 m.

Models

- EDRA circular diffusers with adjustable cones;
- EDRA-PQ circular diffusers with adjustable cones on square panel 595x595 mm.

Accessories

- EPZ-DC galvanised steel plenum;
- EPI-DC insulated plenum;
- SD butterfly damper;
- EQUA equaliser;
- Fixing clips kit.

On request

Cone positioning adjustment via thermostatic control.

Colour on request.

Operating Data

- V_k : effective speed (m/s).
- m^3/h : flow rate.
- Pa: pressure drops in Pascal.
- L(m): air throw in metres calculated on ceiling installation, terminal velocity 0.25 m/s.
- dB(A): noise level.

SD - Balancing Damper

All dimensions are expressed in mm.

The SD butterfly regulation damper is suitable for installation on circular diffusers, it is made of galvanised steel and it comes with a sturdy adjustable opening/closing mechanism, which prevents vibrations and noise. The damper is adjusted by turning the adjustment screw using a screwdriver, by inserting it into the hole on the threaded bar of the diffuser.

Accessories

EQUA - Equaliser

The equalizer is an accessory designed to break up the airflow and distribute it evenly across the diffuser outlet, ensuring a uniform air discharge and improved airflow distribution.

EPZ-DC - EPI-DC - Plenum Box

All measurements are expressed in mm.
