

EDSC-C EDSC-CC EDSC-Q Hidden diffuser for gypsum

Description

Circular or square gypsum diffusers for installation on plasterboard ceilings.

Features

- Diffusers made of gypsum, paintable central body;
- Plastic connection sleeve with silicone gaskets;
- Steel adjustment screws;
- Easy and quick installation;
- Suitable for installation on single and double plasterboard, and for non-standard thicknesses;
- Adjustment damper already included;
- Safety packaging, no damage during transport;
- Safety cable already included;
- Central body fixed by magnets;

Model

- EDSC-C - Circular hidden diffusers for gypsum;
- EDSC-CC- Circular hidden diffusers with coanda effect for gypsum;
- EDSC-Q - Square hidden diffusers for plasterboard.

Accessories

- EPZ-DC - Galvanised plenum box;
- EPI-DC - Insulated plenum box;
- EARS-PN - Galvanised plenum box for connection with HTPE pipes;

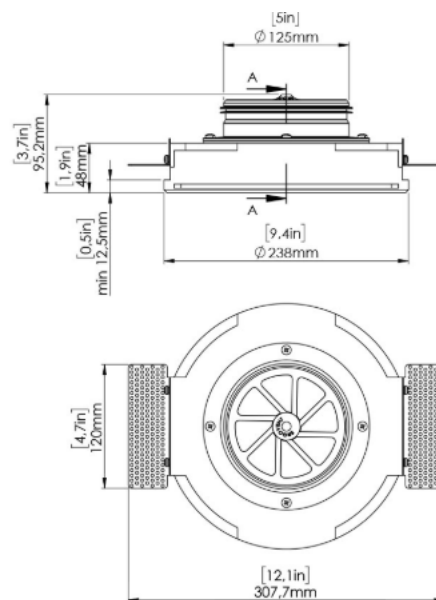

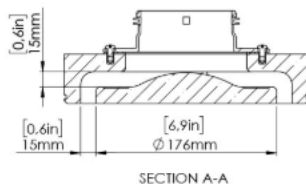

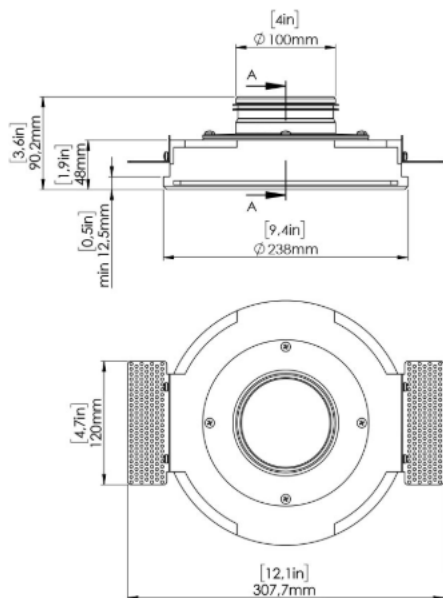

Note

More information on flow rates, pressure drops, and installation methods are available in the technical datasheet in the "Documentation" section.
