

# ETM90 Flexible ducts in reinforced polyamide fabric

## Description

Flexible ducts made of reinforced polyamide fabric, PVC coated on both sides and inner steel wire helix.

## Characteristics

Colour : gray (black on request).

Temperature range: from -20°C to +90°C (temperature tips + 120 ° C).

Radius of curvature : 0,7 x diameter.

Axial compressibility : 8:1 Complies with the UL94 flame-retardant standard, class VTM-0.

## Size

From diameter 40mm to 400mm standard 10 meters (20 meters on request).

For larger diameters minimum lot 10 meters in size of 5 meters.

## Use

- Suction of fumes, gases and vapours;
- Ventilation and aeration;

The special design allows the use in suction and air ventilation also with moving parts.

## Price List

The length of the hose should to be considered in a extended position and at environment temperature (16/18°C - tolerance ±2%)
