

# EASY BOX ABS plenum for air distribution

## Description

The EASY BOX plastic plenum for MVHR systems is designed to ensure efficient air distribution and ease of installation in residential and commercial environments.

Specifically developed for seamless integration with mechanical ventilation systems, it features a compact and functional design, ideal for wall-mounted or false ceiling applications.

Connection to the dedicated MVHR ductwork can be made from the rear, top, or side positions, ensuring maximum installation flexibility.

The plenum is supplied complete with balancing dampers and is compatible with a wide range of accessories, designed to provide quick, simple, and professional installation.

The system can be completed with EGE series designer grilles in the selected model, allowing perfect integration into any architectural environment.

## Features

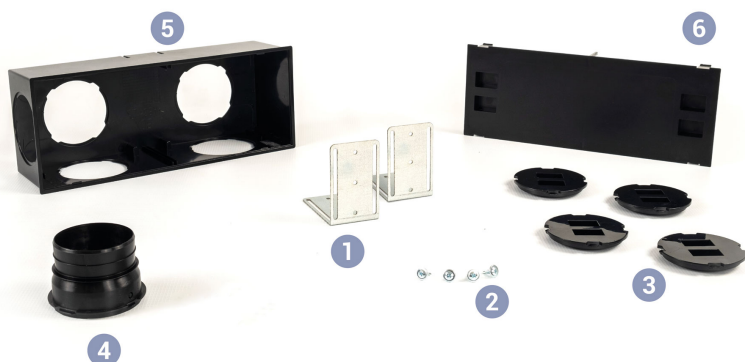

EASY BOX universal ABS plenum kit with polypropylene spigots for EGE series grilles, designed for connection to HTPE PLUS corrugated ducting with 75 mm external diameter / 63 mm internal diameter.

## Accessories

To further enhance the versatility of the plenum, the following accessories are available:

- M63-EASY - Ø63 mm spigot;
- M76-EASY - Ø75 mm spigot;
- S-EASY - Balancing damper for spigot;
- T-EASY - Closing cap.
