

EMV-PFS Supply diffuser with fixed ABS cones

Description

Supply diffuser for heating and air conditioning.

Features

Made of high-quality plastic material (ABS).

The special aerodynamic design of the disc valve ensures uniform air distribution.

Quick and easy installation by means of mounting flange and fixing ring.

The inner section is equipped with a sealing gasket for improved airtightness and coupling stability.

Models with integrated insect screen are available.

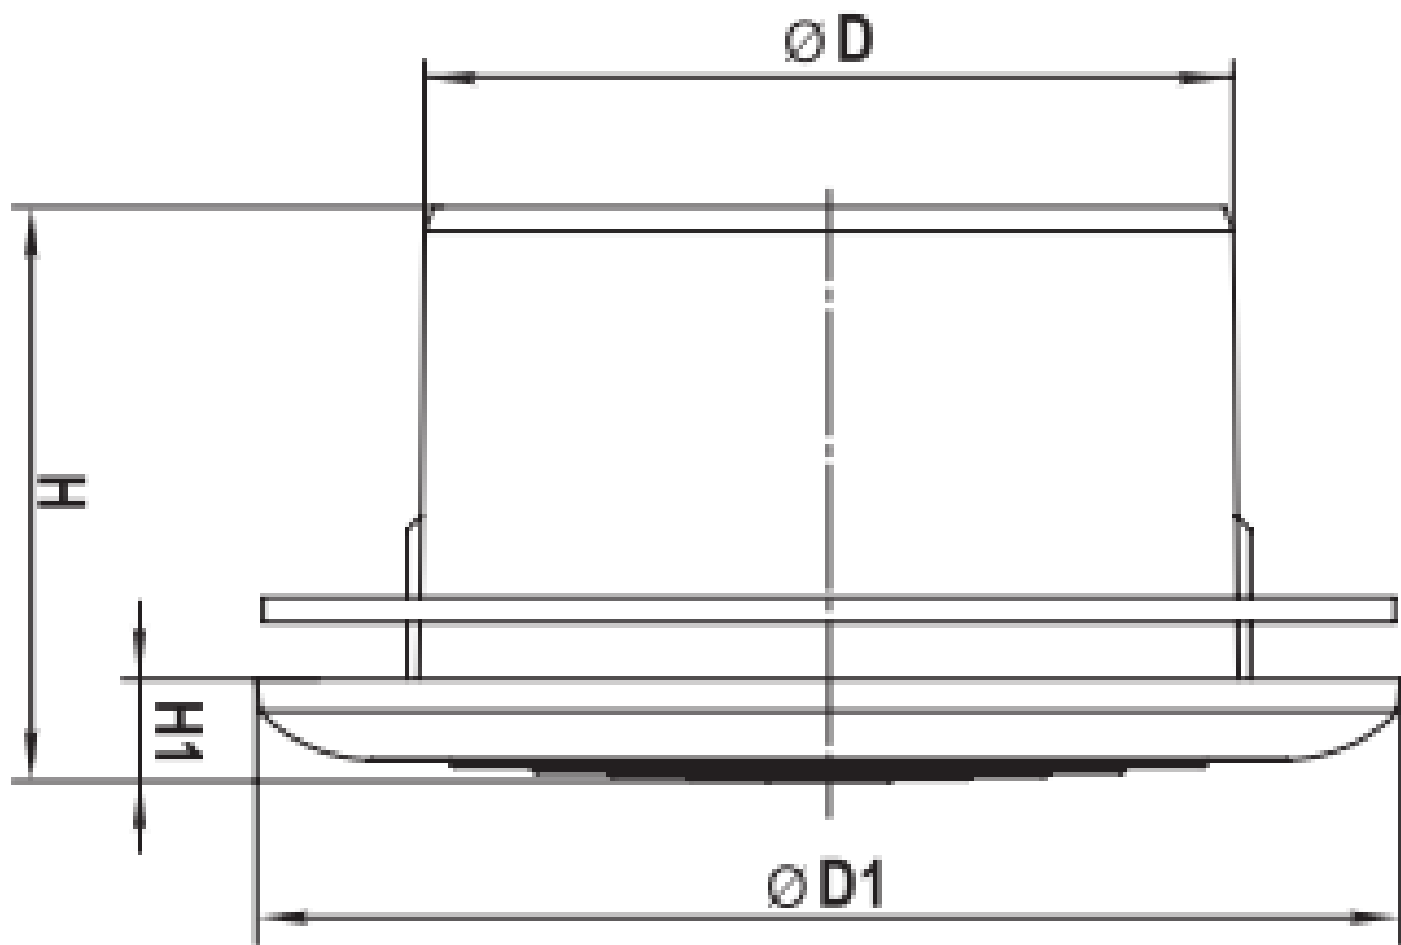

Use

Ideal for supply air applications in ventilation, air conditioning, and heating systems.

Designed for wall or false ceiling installation.

Engineered to ensure proper air circulation within indoor environments.
