

EPL - EPP Galvanized steel plenum with side or rear connections

Description

The EPL/EPP air distribution plenum is manufactured from robust galvanized steel and designed for use in Ecoclimate Controlled Mechanical Ventilation (VMC) systems. It is available with side connections (EPL series) or rear connections (EPP series), featuring Ø63 mm plastic spigots specially shaped to ensure a perfect seal and quick connection to HTPE PLUS Ø63/75 mm corrugated ducts.

Compatible with Ecoclimate EAG, EAL, and EAGF supply and extract air terminals, it ensures efficient and uniform air distribution throughout the served spaces.

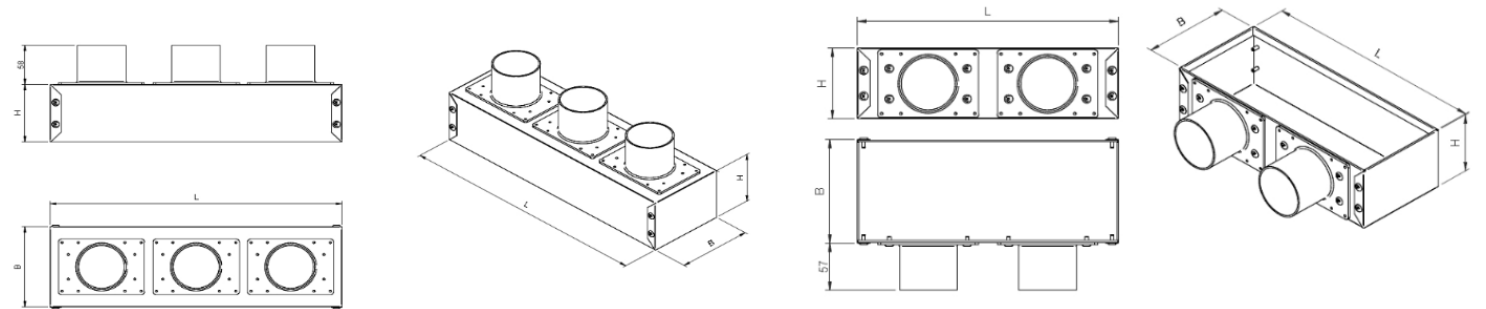

Models

- The EPL/EPP series is available in three sizes:
- EPL-1263 - 120 × 120 mm dimensions with 1 side Ø63 mm connection.
 - EPL-263 - 300 × 120 mm dimensions with 2 side Ø63 mm connections.
 - EPL-363 - 400 × 120 mm dimensions with 3 side Ø63 mm connections.
 - EPP-1263 - 120 × 120 mm dimensions with 1 rear Ø63 mm connection.
 - EPP-263 - 300 × 120 mm dimensions with 2 rear Ø63 mm connections.
 - EPP-363 - 400 × 120 mm dimensions with 3 rear Ø63 mm connections.

Accessories

- EAPRO - Telescopic extension for EPL-EPP plenums.
- EAGF - Perforated grille.
- EAG - Extract air grille.
- EAL - Fixed horizontal bar grille.
