

EVKABB - EVKABT ECOWATT Self-cleaning ventilation units

Description

Self-cleaning ventilation units made from galvanised steel plates, double-wood sandwich panels with acoustic nonflammable insulation (M0) in 17mm glass wool, dynamically balanced, aluminium centrifugal fan with backward-curved impellers, brushless DC motor situated outside the airflow, and a remote terminal box with built-in on/off switch.

Characteristic

High-performance, low-consumption, brushless DC motor.

EVKABB ECOWATT and EVKABT ECOWATT are suitable for transferring air with temperatures up to 100°C in continuous service.

Models

- EVKABB ECOWATT Models: Single-phase 230V±10% 50/60Hz, IP55, Class F, with thermal protector, adjustable via potentiometer built into the remote terminal box or analogue input to control the fan with a 0-10V signal. Models suitable for a range of working temperatures, from -20°C to +40°C.
- EVKABT ECOWATT Models: Three-phase 400V±10% 50/60Hz, IP55, Class F, with thermal protector, adjustable via potentiometer built into the remote terminal or analogue input to control the fan with a 0-10V signal. Models suitable for a range of working temperatures, from -20°C to +40°C.

Accessories

REB ECOWATT - Speed regulator for EVKABB/EVKABT ECOWATT.

Dimensions

All measures are expressed in mm.

Models		A	B	C	D	E	F	G	H	J	K
		(mm)	(mm)	(mm)	(mm)	(mm)	(mm)	(mm)	(mm)	(mm)	(mm)
