

EVOV Helicoidal wall fans ø 250 to 630

Description

Helicoidal wall fans with square painted panel and external rotor single phase motor.

use

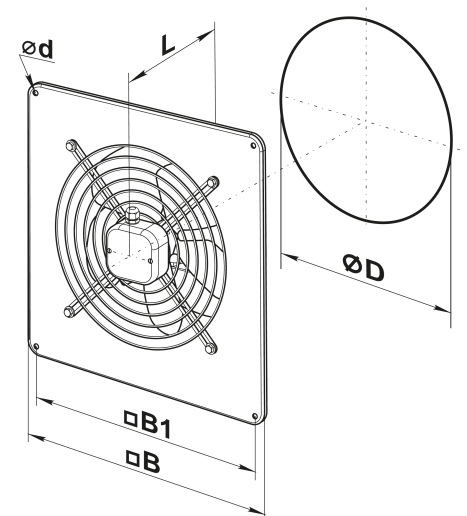

- Air flow rates from 200 to 12.000 m³/h;
- Static pressure up to 90 Pa.

Characteristics

Material : painted steel panel.

Black Colour.

Installation : Wall. Degree of protection : IP 24.

Dimensions

all measurements are in mm
