

TECHNICAL DATA REQUEST FORM

(necessary for the drafting of the simulation/calculation report)

COMPANY NAME:

PROJECT:

Air flow	m ³ /h
Usable static pressure	Pa
Room Height	m
Installation height at axis	m
Air temperature in heating mode	°C
Air temperature in cooling mode	°C
Room temperature during heating mode	°C
Room temperature during cooling mode	°C
Exhaust air positions (high or low)	
Area to be treated to the right of the duct (indicate distance from the wall)	m
Area to be treated to the right of the duct ((indicate distance from the wall)	m
Intended use and characteristics of the room (glazing to be treated, special habitability requirements such as “protected zones”, etc.)
