

EVTE Roof centrifugal fan

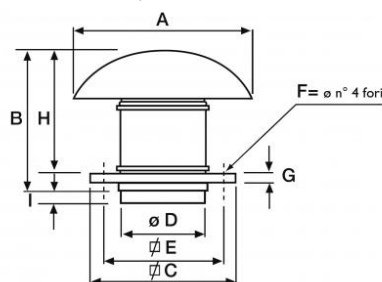

Description:

Strippers elicocentrifughi roof with adjustable phase motor with three speeds , built with materials resistant to the elements.

use:

Extraction of stale air (kitchens, toilets, laboratories) with maximum temperature 60 ° C .

Characteristics:

Material :

- Base and aluminum cap
- Structure and impeller in the plastic sheet of black color

Finishing: All metal parts are protected with black polyester paint .

Installation: Roof .

Special features :

very simple extraction of the motor / fan.
The extractor fan becomes able to enter the air inside the room, by simply turning upside down the same .

Accessories :

- Non-return damper
- A three-speed switch
- single-phase regulator

dimensions

all measurements are in mm
