

EDCS Circular diffusers with single adjustable cones

Description

Circular diffusers with micrometric adjustment with single cone.

Diffuser characteristics

Material: aluminium.
Finish: painted white RAL 9010.
Installation: secured with screws to the diffuser neck.

Use

Ducted air conditioning and treatment systems with installation height between 2.7 and 6 m.

Models

- EDCS circular diffusers with single adjustable cone
- EDCS-PQ circular diffusers with single adjustable cone on square panel 595x595 mm.

Accessories

- EPZ-DC galvanised plenum;
 - EPI-DC insulated plenum;
 - SD damper;
 - EQUA equaliser;
 - Fixing clips kit.

Operating data

V_k: effective speed (m/s)

m³/h: flow rate

Pa: pressure drops in Pascal

L(m): air throw in metres calculated on ceiling installation, terminal velocity 0.25 m/s

dB(A): noise leve

noise level							

SD regulation damper

The SD butterfly regulation damper is suitable for installation on circular diffusers, it is made of galvanised steel and it comes with a sturdy adjustable opening/closing mechanism, which prevents vibrations and noise. The damper is adjusted by turning the adjustment screw using a screwdriver, by inserting it into the hole on the threaded bar of the diffuser.

**INSTALLAZIONE DEL DIFFUSORE CON TUBO FLESSIBILE
INSTALLING THE DIFFUSER WITH FLEXIBLE DUCT**

All dimensions are expressed in mm

Model	$\varnothing M$	N	O
